Innovation session: Technology pitches from industry and clinic

Invitation for pitches and expo

Join the 4th edition of the Innovation session for neurology! The Innovation session will be part of the annual international clinical symposium Update@Kempenhaeghe and will take place on the 22nd of March 2018 in the morning in Heeze, the Netherlands. We will start the plenary session with short pitches. Afterwards there will be an informal networking lunch at the expo market, followed by thematic round-table discussions. We expect over 100 participants this year. The Innovation session offers you and your company exposure opportunities and a chance to create connections with clinicians, technical and medical researchers and industry. More than in the previous years, we would like to develop an innovation community that stays connected after the session.

We are looking for cutting edge technology pitches, exhibitors, and good ideas in need of new solutions, in the domain of neurology. We are looking for you!

Call for pitchers: present your idea

In the plenary session you can pitch your innovative product, service, or need. Please end your presentation with a concrete question to the other participants in the forum.

- A pitch is max 5 minutes and max 3 slides.
- No fee.

Call for exhibitors: present yourself at the expo

Like last year, we will make a small expo market where innovators can showcase their innovation or company, which will provide the setting for informal networking. Facilities to create a professional exhibition market are present and lunch will be provided.

- The logo of your company will be included on the invitation.
- Fee € 250,-.

Call for round-table discussion participants: make a connection

New this year will be round-table discussions based on dedicated themes, enabling people from industry, research, and clinic to find each other and explore synergies in a shared area of interest.

Please note: due to time restrictions there is a limited number of pitchers, exhibitors and round-table participants. In case of more applications the organizing committee will make a selection.

Please send your interest before Friday, January 12, 2018 to Marjolein van Lieshout
m.i.v.lieshout@tue.nl

Thank you and kind regards,

THE ORGANIZING COMMITTEE

Prof. dr. Bert Aldenkamp (Kempenhaeghe)
Prof. dr. Panos Markopoulos (Eindhoven University of Technology)
Dr. Marjolein van Lieshout (Eindhoven University of Technology)
Drs. Annelies Vandamme (DSP Valley)
Sunita Bunyadi (Kempenhaeghe)
